(Light Rail Transit) Jabodebek National Strategic
Project, Indonesia

I AM SPEAKING AT:

2021 | IPMA GLOBAL
BEST PRACTICE WEEK
ONLINE EVENT

April 27th | 9:00 am CEST / UTC+2

Adi has been active for more than 23 years in the field of project management related, in such diverse sectors as Mining, Oil & Gas, EPC, Telecommunication, Information Technology and Project Management Consultation in Asia Pacific Region. In the past 10 years he was assigned to manage several projects that listed as PSN (Proyek Strategis Nasional / Strategic National Projects) in Indonesia, including Asian Games 2018, LRT Jabodebek Project, etc.

Abstract: The Greater Jakarta LRT or Jabodebek LRT is aimed to tackle Jakarta's high road traffic congestion. The northern section of the LRT project partly replaces the Jakarta Monorail project which has been cancelled. This project is currently under construction in Jakarta, the capital city of Indonesia, and the adjacent area of West Java and Banten, within Jakarta Metropolitan area. It is being implemented by the central government. To be directly operated by the Indonesian State Railways (Kereta Api Indonesia), the system is planned to connect Jakarta city center with suburbs in Greater Jakarta such as Bogor, Depok and Bekasi, hence its acronym "Jabodebek".
