# I AM SPEAKING AT:

2021 | IPMA GLOBAL  
BEST PRACTICE WEEK  
ONLINE EVENT

April 27<sup>th</sup> | 2:30 pm CEST / UTC+2

Dipl. - Ing. (FH) Bülent Yildiz is founder and CEO of the REFINE PROJECTS AG, a Project Management & Lean Construction consultancy, founder and managing director of the refineVVC GmbH and lecturer at the HFT Stuttgart.

As a senior-consultant Bülent Yildiz realized from 1999 until 2015 several projects as responsible overall project director and project manager. Mr. Yildiz also worked for well-known investors, like the Dr. Ing. h.c. F. Porsche AG and the Hugo Boss AG, in German-speaking countries as well as abroad. Beside his operation as a senior-consultant, Bülent Yildiz held a lectureship at the University of Applied Sciences Hochschule Biberach/Riß from 2001 to 2018 for the degree program Project Management, under which he gave lectures about scheduling and cost planning as well as contract management. Since 2018 he is lecturer at the "Hochschule für Technik" in Stuttgart with focus on Project Management.

In 2015 he founded the refine Projects AG, a consulting company in Germany/Stuttgart, in which Bülent Yildiz is CEO and involved in consulting work around the subject Lean Construction & Design and Project Management with national and international clients in various industries.

Since he holds a guest lecturer and as a member of the German Lean Construction Institute (GLCI), furthermore, he is supporting and sharing his experience with various Communities of Practice in Germany.

**Company:** Refine Projects is set to inspire organisations, teams and people to challenge and refine their processes and capabilities. We believe there is nothing that is so good that it cannot be improved. Hence we provide leading edge insight into the application of lean to make sustainable improvements. As an international consulting firm we are focusing on organisations and Processes with complex projects across various Industries. With a dedicated team of experts we inspire people, projects and entire organisations to transform through Systemic Project Management, Lean Construction and Lean Management to a new approach which delivers value with more collaboration and effectiveness and is set to achieve greater profitability.
