

FERNANDO ANTONIO A. OLIVEIRA
Vice-president Programs – Commercial Aviation

I AM SPEAKING AT:

2021 | IPMA GLOBAL
BEST PRACTICE WEEK
ONLINE EVENT

April **28th** | **4:30** pm CEST / UTC+2

Fernando Oliveira is EMBRAER's VP of Programs for Commercial Aviation. He holds a degree in Mechanical Engineering and is specialized in Business Administration. Senior executive with more than 20 years of proven experience in the aerospace industry managing large and complex global projects, Fernando is a well-known project management professional practitioner and sponsor, being recognized both national and international. Under his leadership, EMBRAER Ejets-E2 was nominated and awarded PMI's 2019 Project of the Year and Aviation Week's 2019 Grand Laureate Awards among others. Passionate about Lean Product Development and Agile, Fernando champions multiple initiatives throughout the organization.

Summary:

EMBRAER's history is deeply connected to resilience from the very beginning. In a country that did not even manufacture bicycles, resilience equipped us to build a heritage of challenging the impossible. It shaped our culture. The E2 journey is no different. Resilience enabled EMBRAER to develop and deliver a new and high-tech commercial jet, outperforming even the highest expectations with a short schedule, a limited budget and a benchmark spec.
