

OXANA KLIMENKO

IPMA Vice President for Standards & Certification, Business consultant in project management, visiting professor at Universities, Green Project Management Executive Director in Russia and CIS countries, Russia

I AM SPEAKING AT:

2021 | IPMA GLOBAL
BEST PRACTICE WEEK
ONLINE EVENT

April **28th** | **9:00** am CEST / UTC+2

Key message: “If we do not measure, we do not control” – HOW to measure and strengthen the PM competence of your organisation?

Summary: Let’s see how we can measure the organisational competence in project management!

WHY to attend?

Three questions to be answered:

- HOW to measure the PM competence of your organisation?
- WHAT tools could be used for self-assessment?
- HOW to better develop and strengthen the PM competence of your organisation?

Organisations differ in size, scale, industry and sector, and at the same time they have something in common. To fulfil projects, programmes and portfolios the organisations have to be competent in many aspects:

- People in teams and support units
- Structure, processes, methods and tools
- Strategy and culture

In terms of sustainability all projects, programmes and portfolios need to measure their impact on social, environmental and economic impacts.

WHAT will you get?

- Knowledge of modern trends in organisational PM competence development
- Practical tools that you can use for the self-assessment
- Best practice examples of worldwide cases of IPMA Delta®
