2021 | IPMA GLOBAL  
BEST PRACTICE WEEK  
ONLINE EVENT

April 28<sup>th</sup> | 2:30 pm CEST / UTC+2

### Dr. Axel Sitt

Axel Sitt possesses more than 20 years experience with challenging projects in the fields of risk- & crisis management, information security and Internal Audit. He designs, implements and trains Board of Crisis teams, risk managers and security organisations, addresses all aspects of an integrated state-of-the-art risk management and cyber security, including IT- and Business Continuity Management. Axel Sitt has a rich and long-term know-how in various industries. Among others he has been engaged intensively in automotive, consumer products, telecom and financial services.

### Johannes Vamos

Johannes Vamos is an experienced project manager and specialist in the field of information security. His technical background and high communication skills allow him to take on an interface role between technology and management. He specializes in security architectures as well as resilience and business continuity management. During his projects and collaboration with customers in the last years, he developed a strong understanding of how to achieve and maintain resilience in IT environments.

### Toni Begić

Toni Begić is a dynamic, reliable and resilient program and project manager with extensive experience in various fields of industry, research and development, defense and smart mobility. In addition to his project management skills, he gained before professional experience as system engineer in the fields of research and development, commissioning and troubleshooting both in industrial and defense projects for mechatronic systems and ICT applications.
