Sharing a moment of motivation with Celine makes you feel her philosophy of life! She relies on her sports career and personal experiences to share how she came back to life and now deals with all challenges. Goals are made to be reached and dreams are made to come through. With that energy, she competed at the Rio 2016 Paralympics in the equestrian event, got into athletics in 2018 and is improving for the Tokyo 2022 Paralympic Games.

“Anything is possible”, that is the mindset of which she will convince you. Her conferences include coaching: she personalises her conferences following your ambitions and needs.
