Currently: international project on cross border sustainable energy; helping a large city to purchase and contract more circular / sustainable.

Be a guide for organisations in their (sustainable) transition or transformation – journey.

Run (multi-organisational) programmes that “cannot be done”, delivering sustainable outcomes.

Doing what needs to be done, pragmatically, based on a wide experience in management techniques and methods, and using agile when appropriate. Sustainability is key in what I do and want to do, in the broadest sense of the word.

Bridging the gap between informal and formal organisation. Really ensuring strategy delivery by improving management of portfolios.

Experienced in multi-cultural, multi-national environments.
